Available Worldwide: Remote, On-site & Relocation

PROFESSIONAL PROFILE

Experienced Full-Stack Developer holding a Professional Master's in Systems, Networks & Cloud Computing and a Bachelor's in Software Engineering from the Faculty of Sciences of Sfax (Tunisia). Specialized in building highly available distributed architectures, complex web/mobile applications, Cloud infrastructure, and DevOps pipelines.

PROFESSIONAL EXPERIENCE

Full-Stack Developer

June 2025 - Present

SuiSco Sarl

Lomé, Togo

- **EduBoost (eduboost.tg):** Architected and built the national multi-channel lottery platform (Web, SMS, USSD, Mobile Money MIXX/VAS) currently live in production in Togo.
- **Distributed Architecture:** Designed a high-availability system with 15 Django write nodes using collision-free ticket generation (`SERVER_ID` + PostgreSQL sequence) and 1 central aggregation node.
- **Async Workflows & Performance:** Built Celery ∼500 ms ticket sync to central DB, 30s crash recovery, async Web generation (`request_id` polling), and synchronous SMS/USSD (<50 ms).
- **Corporate Gifting & Security:** Developed the Offrir portal (PDF generation, SMS/email OTP via secured central route, claim flow), HMAC-SHA256 webhook verification, and Redis rate-limiting.
- **Live Draw System:** Implemented a 4-phase draw workflow with bijective ticket anonymisation, OTP voting (soiree.eduboost.tg), admin selection, and public draw display (tirage.eduboost.tg).
- **Additional Projects:** Built **DefiQuiz** (defiquiz.tg), maintained **SuiSco My Account** (PHP Laravel), and integrated centralized **Keycloak SSO** (OAuth2/OIDC).

MAJOR PROJECTS

EduBoost - National Lottery Platform

2025 - Present

SuiSco Sarl / YAS TOGO

Production Platform

- **Architecture & Scale:** 15 Django write endpoints + 1 central aggregation node (7 applications, 3 public domains).
- **Multi-Channel Purchases:** Web (async), SMS/USSD (synchronous <50 ms, idempotent `ref_id`), and Mobile Money (MIXX & VAS via HMAC-SHA256 webhooks).
- **Corporate Gifting Portal:** Offrir portal for corporate vouchers, PDF receipt generation, and centralized OTP verification.
- **Live Draw System:** Pre-draw bijective anonymisation, OTP voting portal, and live draw display.
- **Tech Stack:** Django 6, DRF, SimpleJWT, Nuxt 3, Vue 3, Pinia, PostgreSQL 17, Redis 7, Celery, Gunicorn, Docker, Tailwind.
- **Links:** eduboost.tg • soiree.eduboost.tg • tirage.eduboost.tg

BudaxDrive - Car-Sharing & Mobility Platform

2025 - 2026

Full-Stack & Cloud Project

Production Platform

- **Multi-Platform Ecosystem:** Architected and built an end-to-end car-sharing and vehicle rental platform (Burundi) featuring a Spring Boot 3 API, a Next.js 16 web portal, and a Flutter mobile app.
- **Backend Architecture & Data:** Java 17 API structured in *Vertical Slice DDD*, 20 Flyway schema migrations on PostgreSQL, spatial indexing, Redis caching, and distributed rate-limiting.
- **Dual-Channel Real-Time (WebSocket):** STOMP broker with dual endpoints (`/ws` with SockJS for Next.js, native TCP `/ws-native` for Flutter) with handshake JWT authentication for chat and alerts.
- **Security & GDPR Audit:** Overhauled vehicle legal document security with authenticated byte streaming, access audit logging, and user soft-delete with anonymization for the right to be forgotten.
- **Anti-Fraud Digital Inspection:** Geofenced check-in/check-out workflow with mandatory multi-angle photos, unique PIN validation, and device GPS capture via Flutter.
- **Tech Stack:** Java 17, Spring Boot 3.2, PostgreSQL, Redis, Flyway, Next.js 16, React 19, TypeScript, Flutter, Dart, Riverpod, Docker, Fly.io, Vercel.
- **Deployment:** carshare-frontend.vercel.app (Live in Production)

GTEF Platform — EdTech & E-Learning Monorepo (LMS)

2025 - 2026

Global Tech Education Foundation

Turborepo Monorepo

- **Monorepo Architecture:** Architected an enterprise Turborepo + pnpm workspace powering 3 applications (Public Web/LMS portal, ERP/CRM Admin portal, Fastify 5 REST API) and 4 shared packages (`database`, `ui`, `i18n`, `config`).
- **High-Throughput API & Search:** Built modular Fastify 5 microservices with Drizzle ORM on PostgreSQL (Neon), sub-millisecond full-text search via Meilisearch, and interactive OpenAPI docs via Scalar.
- **E-Learning & Automated Certification:** Course progression engine, interactive quizzes, and dynamic cryptographic QR-code verified PDF certificates generation (`pdf-lib`, `qrcode`).
- **Multi-Gateway Payments & Cloud:** Integrated Stripe and PayDunya (African Mobile Money), pedagogical asset storage via Cloudflare R2 / S3, and real-time Sentry observability.
- **Design System & Testing:** Modern Next.js 15 (React 19, Tailwind 4, Motion) bilingual (EN/FR) UI, shared component library, automated Playwright E2E and Vitest unit testing in GitHub Actions CI.
- **Tech Stack:** TypeScript, Fastify 5, Drizzle ORM, PostgreSQL, Neon, Meilisearch, Next.js 15, React 19, Tailwind CSS 4, Turborepo, Docker, Playwright, Vitest.
- **Deployment:** gtef-platform-web.vercel.app (Live in Production)

DefiQuiz - Educational Quiz Platform

2025 - Present

SuiSco Sarl / YAS TOGO

Web Platform

- **Description:** Multi-client quiz platform featuring 5,000+ questions across multiple knowledge domains.
- **Tech Stack:** Nuxt.js / Next.js frontend, Hono.js / Deno.js backend.
- **Link:** defiquiz.tg

SuiSco My Account & Centralized SSO

2025

SuiSco Sarl

Internal Applications

- **SuiSco My Account:** Multi-client account management web app built with PHP Laravel, REST APIs, and MySQL.

- **Keycloak SSO:** Single Sign-On implementation with Keycloak (OAuth2/OIDC) across distributed services.

Internship Management Platform *2024*

Djagora

Final Year Project

- **Description:** Web and mobile platform for managing internship offers, student applications, and tracking.
- **Tech Stack:** React, Node.js, MySQL (Web) and React Native (Mobile).
- **Source Code:** github.com/Shieldish/PFE- • github.com/Shieldish/Gestion-Apps-final

Social Data Extraction & Visualization *2021*

DK-Soft

Internship Project

- **Description:** Real-time social media data extraction and analytics visualization dashboard.
- **Tech Stack:** Angular, Elasticsearch, Logstash, Kibana (ELK Stack).
- **Source Code:** github.com/Shieldish/test • github.com/Shieldish/Api-test

EDUCATION

Professional Master's Degree in Systems, Networks & Cloud Computing *2022 - 2024*

Faculty of Sciences of Sfax

Sfax, Tunisia

- Information Systems Engineering - Distributed architectures, virtualization, cloud computing, Linux administration, and network security.

National Bachelor's Degree in Computer Science *2019 - 2022*

Faculty of Sciences of Sfax

Sfax, Tunisia

- Software Engineering & Information Systems Major - Algorithms, databases, UML, software engineering, and computer networks.

High School Diploma - Science Series D *2014 - 2017*

Lycée La Grâce

Sokodé, Togo

TECHNICAL SKILLS

Frontend	React, Next.js, Vue.js, Nuxt 3, Angular, TypeScript, Tailwind CSS
Backend	Django, DRF, Celery, Gunicorn, Node.js, PHP Laravel, Hono.js, Deno.js, API REST, Python
Mobile	React Native, Flutter
Databases	PostgreSQL, MySQL, Redis, MongoDB, Elasticsearch
Systems & Cloud	Linux/Unix, Docker, Docker Compose, Distributed architectures, Keycloak (SSO), ELK
DevOps & Methods	Git, GitHub, GitLab, CI/CD pipelines, Virtualisation, Agile / Scrum

LANGUAGES

French Native

English Professional working proficiency
