About

Full-Stack Developer holding a Professional Master's in Information Systems Engineering (Systems, Networks & Cloud Computing) and a Bachelor's in Computer Science (Software Engineering & Information Systems) from the University of Sfax, Tunisia. Experienced in designing and building web and mobile applications, distributed systems, REST APIs, and cloud infrastructure. Comfortable across the entire stack - from backend services to modern front-end frameworks and DevOps pipelines.

Experience

Full-Stack Developer

June 2025 – Present

SuiSco Sarl · Lomé, Togo

- ▶ Built and maintained **SuiSco My Account**, a multi-client web application using PHP Laravel
- ▶ Built a **Quiz App** with Nuxt.js / Next.js frontend and Hono.js / Deno.js backend, serving multiple business clients
- ▶ Designed and integrated a centralized **Single Sign-On (SSO)** solution with Keycloak, reducing authentication overhead across services
- ▶ Developed RESTful APIs and business logic modules within distributed multi-service architectures

Projects

Internship Management Platform

[React] [Node.js] [MySQL] [React Native]

Djagora - Final Year Project, 2024

Web platform and mobile app for managing student internship offers, applications and tracking. Built with React and Node.js/MySQL for the web side, React Native for the mobile app.

🐙 [Shieldish/PFE-](#) 🐙 [Shieldish/Gestion-Apps-final](#)

Social Data Extraction & Visualization

[Angular] [ELK Stack] [REST API]

DK-Soft - Internship Project, 2021

Angular application for real-time extraction and visualization of social media data using ELK Stack (Elasticsearch, Logstash, Kibana) and external APIs.
